NC Regional Manager

North campus region manager- Rocky Kohler

Please welcome Ronald (Rocky) Kohler as the new North Campus Region Manager. Rocky joined the University in 2009, serving as HVAC Forman at the Hospital. Prior to joining U of M, he worked for Chrysler for 21 years in support of their R & D facilities. During his tenure at Chrysler he served in various positions ranging from Building Maintenance & Operations to Facility Design & Construction. Rocky has a MS in Engineering Management and BS in Mechanical Engineering from Oakland University.

School of Information North

The College of Engineering has negotiated a five year occupancy agreement for SI-North. We will occupy the second and third levels while School of Information will maintain control of the first level. The Naval Engineering Education Center moved in last month. Planning efforts are underway to move in Inter Pro, Health Engineering and the Communications and Marketing office.

GG Brown Addition

Planning efforts for the GG Brown addition continue with a goal for construction to start in late fall, 2011. The addition is planned to be built in the parking lot north of GG Brown. Construction is anticipated to take 24 months. The design is a collaboration effort of Perkins + Will (New York) and IDS (Troy, MI).

GG Brown addition

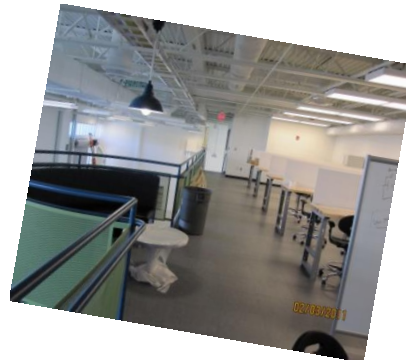

MCard ID Badge

UM will be replacing the swipe card access readers on exterior building entrance doors in May. New proximity type readers will be installed at this time. Also, new MCard ID Badges utilizing smart technology will be required to gain entrance to buildings after hours. Get your new badge now at Pierpont Commons or at remote badging stations to be set up in the atriums of EECS, FXB and CSE during the weeks of March 14th and 21st.

EPB/WSTPC Addition

Construction on the EPB/WSTPC addition has been completed and occupancy is now underway.

Recycle Write!

Procurement Services and the U-M Recycling Program are pleased to announce a brand new program to campus: Recycle Write! This program allows U-M students, faculty and staff to dispose of pens, pencils and markers in an environmentally-responsible way. All items will be recycled through TerraCycle's Writing Instrument Brigade, a partnership between TerraCycle and Sharpie, Paper Mate and EXPO brand products. All brands of writing instruments are accepted through this program. For each item recycled through the Recycle Write! program, TerraCycle will donate \$0.02 to the C.S. Mott Children's Hospital. CoE will be installing collection boxes in each of our classrooms soon.
